

# Team Decided – Raft Consensus

Inception Iteration Plan 11 - Starting 20/08/2018

## 1. Key Milestones

Milestone	Date
Iteration Start	20/08/2018
ICOM	3/09/2018
Detailed Performance Analysis/optimisation	3/09/2018
Iteration End	3/09/2018

## 2. High-level Objectives

ID	Objective	Date
1	ICOM	3/09/2018
2	Detailed Performance Analysis/optimisation	3/09/2018

3. Evaluation Criteria

Obj. ID	Evaluation Criteria
1	Complete and submit ICOM
2	Continue on detailed Performance Analysis/optimisation

#### 4. Work Item Assignments

State:

C – Complete

P – In Progress

W – Waiting to start

Work ID	Name or keywords	Outcome	State	Assigned to	Est (hrs)	Act (hrs)	Left (hrs)
1	<a href="#">ICOM</a>	Completed multiple sections of the document, left with manual/beta testing and the status assessment	P	Joshua	100:00	49:00	51:00
7	(Optional) <a href="#">Detailed Performance Analysis/optimisation</a>	Completed the immediate optimisations we could make	C	Joshua	10:00	20:00	0:00
Totals					100:00	69:00	51:00

## 5. Issues

Issue	Status	Notes
Use of ICOM contingency due to holiday	Closed	Worth mentioning was that one of the team members took their planned travel, something we'd agreed on early in the project however failed to consider to highlight on our Project Plan, and were required to use our planned contingency time. This worked our fine for us due to the contingency time allocated, however a lesson can still be learnt.

## 6. Assessment

<b>Assessment target</b>	Inception Iteration 11	
<b>Assessment date</b>	03/09/2018	
<b>Participants</b>	All - Joshua and Sean	
<b>Project status</b>	Green - Working through ICOM, although using our planned contingency we're still on schedule	
<b>Assessment against objectives</b>	<b>Objective</b>	<b>Result</b>
	ICOM	Continuing work on IOCM
	Detailed Performance Analysis/optimisation	This work item is only optional. Complete for now, however an iterative approach will be undertaken where time available. There are always improvements to be made.
