5. Issues

Issue	Status	Notes
Needing a large amount of time to complete the rest of PRM	Open	Although we've got a huge amount of work cut out for us during this iteration of producing a PRM document, we've mapped out the time until the 15th and are planning to complete work with 100% of our free time until it's done. We're confident we'll be able to produce a high quality PRM assessment and submit even given the time commitment required.
